

# Sediment Control & Inlet Protection

## 3 Reasons to Choose Dandy Products

Choosing reliable best management practice (BMP) products to keep construction sites EPA compliant and avoid costly fines is part of the job. Learn why Dandy Products is the smart choice for your inlet protection and stormwater management needs.

### The Risk is Real

**97%** or more of all construction sites are now covered under the National Pollutant Discharge Elimination System (NPDES II) regulations

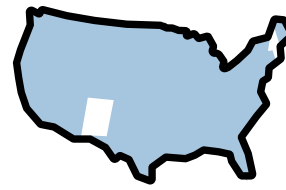

Affects construction zones disturbing  
**1+ acre of land**

### The Cost of Non-Compliance

Negligent Violations  
Fines up to **\$25k per day**<sup>2</sup>

Knowing Violations  
Fines up to **\$50k per day**<sup>3</sup>

**47 states**  
and one territory are authorized to implement the NPDES program<sup>1</sup>

### The Dandy Difference

Dandy Products meet NPDES II requirements, plus so much more.

#### 1 We Deliver Quality

Raw materials sourced domestically

Meets EPA requirements

Manufactured in the USA

Built to last from job to job

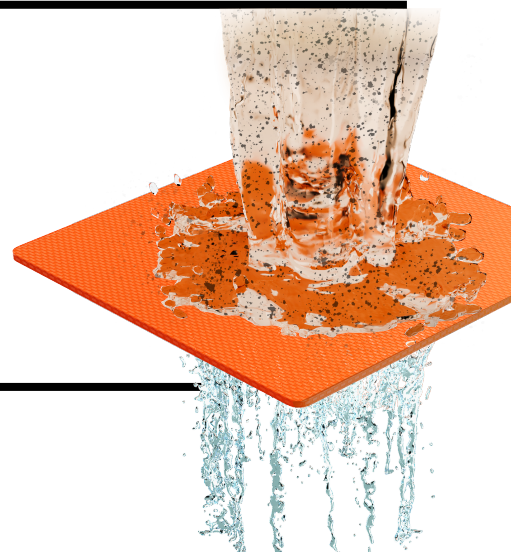

Products are tested and analyzed across  
**10+ criteria**

#### Water Flow Rate Comparison

Silt Fence  
**5 Gallons** min/sq.ft. **vs** Dandy Geotextile  
**365 Gallons** min/sq.ft.

**1,000 lb**  
CBR Puncture rating

**4.9 sec<sup>-1</sup>**  
permittivity

#### 2 We're Built for Speed

U.S. Raw Material Suppliers

Manufactured in Ohio

Domestic Warehousing and Distribution

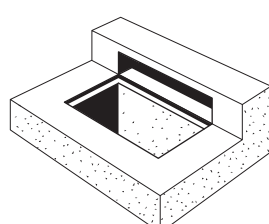

Products drop-ship  
**5 days or less**  
(sometimes 24 hours)

#### 3 We Make Compliance Easy

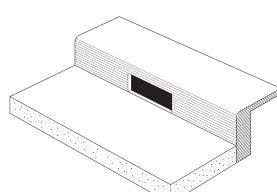

**27+** years of construction expertise to help guide you

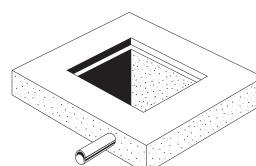

#### Every Inlet Covered and More

✓ Curb and Gutter

✓ Curb Inlet

✓ Drop Inlet

+ Oil  
+ Dewatering

Send us your specs

We match you with the right solutions

Products ship directly to you

#### Custom Sizes

If our solutions don't fit your application (we doubt it) we'll tailor fit our products to meet your needs.

#### Installation is a Snap

Ability to install in minutes

Requires 1-2 people for installation

#### Experience the Dandy Difference
